Subject: We the People

Gershon Cohen came up to my wife and I Saturday night at a restaurant and said, "don't believe what you read in the paper." I told him I hadn't read the paper. After reading the article in the CVN 7/18/13, I have some concerns. As most articles from the "We the People" group, it is very confusing what they are trying to say and accomplish. My concerns are if the Borough changes any "rights" of Corporations in the Borough then this might breach any and all Corporate or LLC Agreements that the Borough has. If you recall it took 9 months to finalize our Land Lease Agreement and over \$100,000 in legal fees. Please keep me up to date on any "Corporate Rights" that would change within the Haines Borough and future meetings on the subject.
